<b>Title of the Project</b>	<b>EDURURAL-AI: Ai driven learning for rural Education</b>
-----------------------------	--

<b>Objectives</b>	<ol style="list-style-type: none"> <li>1. Develop an AI-powered tutor that offers personalized learning experiences.</li> <li>2. Integrate real-time doubt resolution through AI-driven chatbot assistance.</li> <li>3. Ensure offline access through local data storage.</li> <li>4. To develop an AI/ML model that efficiently analyzes and learns from datasets.</li> </ol>
<b>Expected Outcome</b>	<ol style="list-style-type: none"> <li>1. Students will have access to a personalized AI tutor that helps them learn at their own pace.</li> <li>2. The mobile app will be easy to use, making learning more accessible.</li> <li>3. Students will receive instant feedback and progress tracking to improve their learning.</li> <li>4. Learning will be available offline, ensuring uninterrupted education.</li> </ol>
